

C. N. Pass is Battle Ground for Rival Candidates

Jos. D. Matheson, K.C., Conservative Candidate, and A. L. Smith, K.C., to Wind Up Campaign
Here on Saturday---U.F.A. Meetings at Blainmore and Coleman on Thursday---Polling Day Next Monday, July 28

Manion Puts "Pep" Into Election Campaign

"Canada First" and Development of out Canadian manufactured goods, Home Industries is His Plan—King's Policy is Wrecking Canadian Industry and Aggravating unemployment.

The Hon. Dr. R. J. Manion, member of parliament for Fort William for a number of years, and Conservative candidate in the present campaign, spoke here on Wednesday night in support of the candidature of Jos. D. Matheson, K.C., of Macleod.

In opening the meeting he stated the Conservative party were most optimistic on the result of the election, and looked for sufficient gains to give them a good working majority in the house. At present they held 90 seats, and 30 more would put them into power.

In regard to the candidates in this district, he felt that Mr. Matheson would better represent the constituency than anyone else, for he would be on the side of the government and therefore able to accomplish more than a representative who is not on the government side.

Conditions everywhere in Canada were in a depressed state. East or west, farmers were complaining and if they tried to sell their farms they could not get as much as the value of the buildings. Unemployment was never as bad as at present, and this is after nearly ten years of Liberal administration.

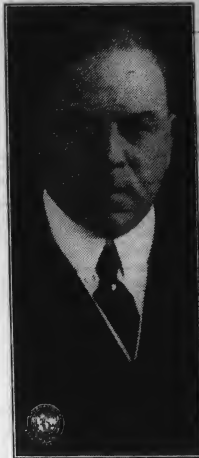

Speaking of the trade policy of the King government, he stated Canada imported last year one hundred million dollars worth of goods. From the United States was purchased 900 million dollars worth of manufactured articles, while our exports were valued at 500 millions of dollars. And a great deal of the imports could have been manufactured in Canada.

In the face of rebuffs and restrictions by the United States in keeping

Another thing that was damaging to Canadian industry was coal imports. 250,000 tons of Russian coal is being brought in this year, laid down at Canadian ports at \$5.50 or \$6.00 per ton. It was produced by men and women working in Russian mines, the women for one rouble or like a day, and the men for three roubles or 54c a day. The policy of Mr. King is wrecking Canadian industries.

The election budget brought into force two and a half months ago was an election hudget and nothing else. It was framed with the intention to try and please the free trade prairie provinces, and the protectionist provinces of Ontario and British Columbia. It certainly was not a cure-all for our ills, as Premier King would have us believe, but it was like the dose that unscientific doctors would make up, putting in about a dozen drugs in a mixture in the hope that one might affect a cure. So it was with this election budget, and Miss Agnes McPhail in the house had remarked that if it did not catch votes its parents would be sadly disappointed.

The Conservative party would see that Canadian industry is protected with the purpose of providing work for Canadian people. What we want is not cheap goods but work and money to buy goods. No matter how cheap goods may be, if a man hasn't the money to buy them their cheapness does not benefit him. The Conservative policy would build up Canadian industry instead of allowing millions to be sent to other countries to purchase manufactured articles. Our job is to build up Canada.

Hon. W. L. Mackenzie King, who appeals for Return of His Government to Garry On.

Premier King's attitude in matters of trade and his five-cent speech in the house had shown him as the worst enemy of Labor Canada has seen.

"Vote for Canada, get behind the Bennett candidates with real Canadianism, and so help to build up Canada. That is the only way in which condition can be improved and a vote for Matheson is a vote for the party that believes in Canada first," was the concluding exhortation of Dr. Manion, who was accorded hearty applause on the conclusion of his address.

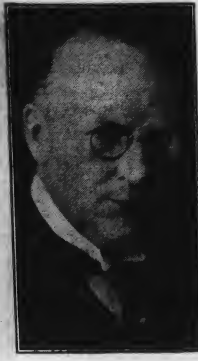

Jas. Scott of Coleman was chairman of the meeting, which was attended by a large number of ladies.

SURVEYS SOUTHERN AIR ROUTE TO B. C.

Fraser Forks, B. C., July 19.—Making close observations of the southern route across British Columbia for air mail purposes, Capt. A. D. McLean of the civil aviation board, Ottawa, arrived Friday morning on a non-stop flight from Alberta. Although facing a strong wind for the entire distance, the hop from High River was made in 3 hours and 5 minutes. He left for Vancouver later.

It was Capt. McLean who directed the ground work of the air mail route across the prairies last year.

Who Will Lead in Next Parliament?

Hon. R. B. Bennett, K. C., Conservative Leader, who challenges Government and Predicts Victory for His Party.

and he has charge of similar work for the British Columbia link. He plans to return to Grand Forks from the coast Saturday and will use this as a base for loc. tug emergency landings. Capt. McLean passed over Coleman going west on Friday morning at 8 a.m. and returned during Sunday afternoon.

GREATEST ENTERTAINMENT SCREEN HAS SEEN

Warner Bros. "Show of Shows," with 100 stars and 1000 Hollywood beauties, is a gorgeous, stupendous show the like of which has not been shown before, and it will be a long time before anything so brilliant will be again produced. It has been booked by the Palace for the week-end at very high expense, but so great has been its drawing power wherever shown that Manager Dow booked it with the desire to give theatre patrons a show that will keep them talking for days after seeing it. See it, hear it, and be thrilled and entertained by this stupendous production of the movie and talkie world.

It is a maxim with me that no man was ever written out of reputation but by himself.—Richard Bentley.

Liberty consists not in doing what one wishes, but in doing what one ought.—Spanish Proverb.

Personal and Local Bandsmen's Protests Bring Reply From Exhibition Executive

The Rev. and Mrs. A. S. Partington and Frances and Mary left on Monday by car to spend a month's holidays visiting relatives in Winnipeg and other points in Manitoba.

"Mickey" Brennan, a former Coleman boy, now employed by Consolidated Mining & Smelting Co. at Trail, dropped off here on Saturday after visiting old friends at Medicine Hat.

The matron wishes to thank Mr. Pattinson for the donation of ice cream sent to the hospital. It was greatly appreciated by patients and staff. Also thanks are extended to Mr. Graham for the lovely flowers.

WHITE-ODELL WEDDING

At 5 p.m. on Friday in the United Church, Mr. Sidney White, of High River, formerly of Coleman, and Miss Agnes Manning Odell, only daughter of Mr. and Mrs. Geo. Odell, were married, the Rev. A. E. Larke officiating.

The bride was given away by her father, and the bridesmaid was Miss Verma McDonald, while the best man was Mr. Dan Kelly of High River.

The church was prettily decorated with carnations. Marguerites were strewn along the aisles and entrance to the church, and the centre pews bore white ribbons and carnations, being reserved for the invited guests.

Mr. Wm. Lees was organist for the occasion, playing the wedding march as the bridal party left the church.

Following the ceremony, the wedding repast was served at the home of the bride's parents, at which about forty guests were present.

Later in the evening Mr. and Mrs. White left on a honeymoon trip by car to Spokane and Coos Bay, and on their return will reside at High River, where Mr. White is on the High School staff.

Mr. and Mrs. A. E. Taylor of High River attended the wedding.

General Manager of Calgary Stampede Comments on Band Competition.

On their return from Calgary Stampede, West Canadian band members voiced their opinions on the adjudicating in the contest for provincial bands.

General Manager E. L. Richardson sent the following letter to The Journal concerning this, which will be of general interest to band members and the public:

"I am rather discouraged about the band contest, because it appears that the only way to satisfy all the bands is to let each one of them judge for themselves. The way that we think is the most satisfactory manner of arranging for the judging of these contests is to utilize the services of the leader of the feature band that we have each year, as he is absolutely impartial and does not know anything about any of the bands. This year we're particularly fortunate in having a bandmaster with the qualifications of Mr. Thavis, and he, in order to give the utmost satisfaction, asked two of his best soloists with international reputations to act with him. I doubt if it would be possible to get a more efficient and impartial judging committee than we had this year.

"Whether it is worth while our continuing this band contest, in an endeavor to give encouragement to bands throughout the province, is a matter for consideration. This is the only complaint that we have had this year. We had one from another band last year, and I presume that other years we shall have them. We are certainly doing our utmost to

(Continued on Page Eight.)

Vote For

J. D. MATHESON, K. C.

The Liberal-Conservative Candidate For Macleod Federal Constituency AND FOR

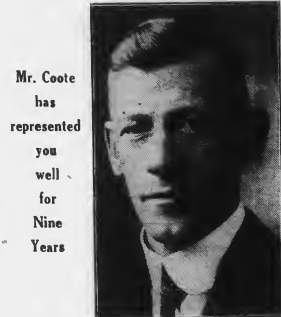

1. STEADY EMPLOYMENT for Coal Miners by supplying Canadian Coal to Canadian Markets. The fuel policy of the Conservative Party will accomplish this.

2. UNEMPLOYMENT RELIEF by a special session of Parliament to be called immediately after the election by Hon. R. B. Bennett to pass grants for public works and

3. PROTECTION for the consumer by legislation to prevent Canadian Manufacturers and other protected interests from adding the customs and excise tariffs to the proper selling price of agricultural implements and other goods.

Send G. G. Coote Back to Ottawa

He has represented the people of the Macleod Constituency with courage and ability

Mr. Coote has represented you well for Nine Years

Mr. Coote has never been false to the confidence placed in him

Mr. Coote deserves credit for: Reduction in tariff on Motor Cars and Trucks.

Amendments to the Grain Act.

The appointment of a new Board of Grain Commissioners.

Old Age Pensions.

Advocating National Highways.

He was largely responsible for government assistance for the movement of coal from the Crows Nest Area to Manitoba.

Macleod Federal Constituency Association of U. F. A.

WHEAT BUYING TO BE TOPIC AT EMPIRE PARLEY

London, Eng.—The Labor Government, through Rt. Hon. Philip Snowden, Chancellor of the Exchequer, has now made it clear that all the British Dominions can hope for at the Imperial Conference next November is a discussion of the possibilities of participating in a system of bulk purchases through an import board.

This system would, for example, enable the Canadian Wheat Pool to sell to the British Government direct, but whether the government would agree to buy if the price of Argentine wheat was lower than the Wheat Pool price is not known, and will not be known until the conference is held.

The conference will take place in the middle of a raging controversy, because all the parties will have eyes on the next British general election, which is not far off now, and unless the visiting premiers are tactful and diplomatic they will find themselves involved.

In spite of Mr. Snowden's anxieties, the Laborites are dubious about the outcome of the conference because they realize that if the Dominions make concrete proposals it would be difficult to reject them without giving the Conservatives an opportunity of exploiting such a rejection throughout the country as party propaganda.

Another War Brewing

James W. Gerard Sees Conflict Coming Between France and Italy

New York, Jan. 13.—James W. Gerard, ambassador to Germany under President Wilson, expressed the belief that upon his return from France that "a new war is brewing between Italy and France."

"It is imminent," he said. "It is in the air." He talked to no diplomats on his visit, he said. Asked if France were the aggressor, he answered: "I should not say so. She has too much to remember of the last war. I think France fears it."

To Fight Cutworm

Farmers Preparing To Exterminators Pest Next Year

Saskatoon, Sask.—Prairie farmers are preparing for the advent next summer of a prominent visitor, the pale western cut worm. K. M. King, of the Dominion Entomological Laboratory, at Saskatoon, urges that an impressive reception be given the insect so well, if not favorably known, in the west. Trouble from the unwelcome guest will be greater even than the extensive damage of this year unless adequate precautions are taken, advises Mr. King.

Tax Incomes For Relief

Australia's Method To Raise Funds For Aid Of Unemployed

Brisbane, Aus.—A special tax on all incomes to provide funds to extend the present unemployment relief works in Queensland, and an arbitration act amendment with a view to abolishing the preference of trades unionists, affirming the right of every man to accept work where and when it is offered, are among the government's proposals at the opening of parliament.

Youthful Traveler

Halifax, N.S.—With a tag on his coat to tell his name and destination, Bazyl Wacko, eight years old, travelling alone from Warsaw, Poland to Star, Alberta, and who arrived in Halifax on the Red Star liner "Westernland," is now on his way west by Canadian National Railways. Bazyl has come to Canada to join his father.

Manitoba Crop Prospects

Winnipeg, Man.—Manitoba's present crop outlook is described as "very encouraging" in a report issued recently by the provincial department of agriculture. Wheat fields are headed, although heads are not long, and are of a good appearance; how well they will fill depends on the weather, the report adds.

Run Over By Mowing Machine

Saskatoon, Sask.—Joseph Walker, 65-year-old farmer of Hanley district, was severely injured when run over by a mowing machine. He is now in St. Paul's hospital here, but is expected to recover.

W. N. U. 1847

Canada's Position Sound

Country Merely Passing Through Temporary Period Of Depression

Victoria, B.C.—Sir Henry Thornton, president of the Canadian National Railways, arrived in Victoria at the end of his trans-Canada survey and announced his conclusion on business conditions as follows: "We can't expect the sun to shine all the time; there are bound to be showers. But so many people are mistaking a shower for a cyclone."

"We have got to look below the surface and see if there is anything wrong with our fundamentals. If you diagnose the position of the country, organically so to speak, you will find that we have the same courageous and intelligent population we had a year ago."

"That tells us that we have no disease, or, as the doctors would diagnose it, we are merely passing through a headache or a cold."

We could not have had the stock market losses of the crash last year in New York, which carried down all the markets in the world, without these losses finding expression in reduced purchasing power of the people in all lines.

"Things will probably mark time for a certain period until the public recovers its purchasing power. If we have a good crop on the Canadian prairies this year we will be well on our way upwards next year."

Noted Labor Leader Dead

James M. Lynch Inaugurated Forty-Eight Hour Working Week

Syracuse, N.Y.—James M. Lynch, former president of the International Typographical Union and leader of the 48-hour working week, died in hospital here of blood infection. He was born Jan. 11, 1867, at Manlius, N.Y., and came to Syracuse as a printer's "devil" on the Syracuse Herald.

He stayed with the newspaper until 1898 when he was elected first vice-president of the I.T.U. after holding the presidency of the local union for seven terms. In 1901 he had a good crop on the Canadian prairies this year we will be well on our way upwards next year."

Greeting For King George

Japanese Emperor Sends Message By Prince Takamatsu

Tokio, Japan.—A greeting from the Emperor of Japan to King George V. is on its way to England, enclosed in a golden cassette, in the keeping of the Emperor's brother, Prince Takamatsu, who with his bride will be the guest of the King and Queen. The message is in the form of a poem by one of the foremost Japanese poets. It is inscribed on parchment and illuminated by Oriental artists. It was formally blessed by the priests at a special religious ceremony in Tokio before it was placed in the cassette, and the cassette was then sealed to exclude malignant spirits.

Would Save Millions

Opposition In Australian Government Ask Reduction Of Members' Salaries

Canberra, Aus.—A fresh sensation was caused in Australia with announcement that the opposition is going to move for reduction in salaries of the Federal Minister and of the members of the House of Representatives. Hon. J. G. Latham, leader of the national opposition, gave notice of intention to move an amendment during debate on the budget. He estimated a saving of 4,000,000 pounds (nearly \$20,000,000) could be effected.

Receives Appointment

Toronto, Ont.—Prof. J. B. Grant, M.B., Ch.B., F.R.C.S., Edin., newly appointed professor of anatomy, University of Toronto, relinquishes a similar position at the University of Manitoba to succeed Prof. J. B. McMurrich, M.A., Ph.D., LL.D. He was temporary captain of the R.A.M.C. and received the Military Cross for war service.

Decision Left To Dominions

London, England.—The question of whether the forthcoming Imperial Conference will discuss the problem of women's nationality was put before Rt. Hon. J. H. Thomas in parliament, and he replied the agenda was a matter for agreement between the Dominions. He was not able to give any specifications.

Was Celebrated Violinist

Dresden, Germany. Leopold von Auer, of New York, celebrated violinist and violin instructor, died of pneumonia at the Sanatorium Loeschwitz near here. He was 85 years old.

Six Women Candidates

In Election Campaign

One Running In Manitoba And Two In Saskatchewan

Ottawa, Ont.—Miss Agnes MacPhail may have to look to her laurels when the busy-busy's done and the battle lost or won. For there are twice as many women candidates in the present election campaign as there were in last. Ontario has two, including Miss MacPhail; Manitoba, one; Saskatchewan, two; Quebec, one, a total of six against three in the election of 1926 and four in that of 1925. And women too are likely to have more to say in the result. They are attending meetings. The new system of enumeration has put more of them on the voting lists.

Miss MacPhail was the first woman elected to the Federal House, and for three parliaments she has remained in her isolation.

At Ottawa, Miss MacPhail has been persistent in her attacks on what she considers evidence of militarism. At the League of Nations Assembly last September, she was substitute delegate with Sir George Foster on the disarmament committee—the first woman to represent Canada at the League.

In the 1926 campaign, Miss MacPhail had the comfortable majority of 1,728, her fight being with a Conservative. Both a Liberal and a Conservative were in the field early in the present campaign but the Liberals did not submit nomination papers.

Miss MacPhail has again a straight fight on her hands.

WINNIPEG PLANS WORK TO ASSIST UNEMPLOYED

Winnipeg, Man.—The cities of Winnipeg and St. Boniface propose to group themselves in an effort to alleviate the unemployment problem under Premier Mackenzie King's dollar-for-dollar scheme. Decision to start at once on the rebuilding of two bridges as relief work for the jobless was reached at a conference of civic officials of the two cities.

Tentatively, it is suggested the Dominion Government, in line with Premier King's promise that the treasury will expend an equal amount with the provinces seeking to relieve unemployment, be asked to pay 50 per cent. of the total expended on the work. The Manitoba Government would be asked to meet 25 per cent. of the cost with the municipalities putting up the remaining 25 per cent.

While the general view of delegates to the municipal conference is that work on the two bridges, entailing an outlay of something more than \$1,000,000, should be started at once, a gigantic collective scheme of public works approximating a cost of \$6,000,000 or \$7,000,000 was considered. An extensive drainage scheme and other bridge construction would form a part of the large scheme.

A delegation was appointed by the conference to discuss with provincial premier John Bracken immediate construction of the two bridges and apportionment of costs.

Canada's Apple Crop

Report Shows Decrease In East But Increase In British Columbia

Ottawa, Ont.—The commercial apple crop of Canada estimated for 1929, as compared with 1930, indicates reductions of 40 per cent. in Nova Scotia, 22 per cent. in Quebec, 33 per cent. in Ontario, less than the five-year average in New Brunswick, while in British Columbia the crop is expected to yield an increase of 22 per cent. The total crop is estimated at 3,113,380 barrels, as against 3,939,915 barrels in 1929, slightly less than three per cent. under the average commercial production for the five-year period 1925-29.

AVIATOR HAS NARROW ESCAPE

Al. Cheesman, Antarctic flier, who escaped without a scratch when his aeroplane caught fire while flying from Sioux Lookout To The Pas. The pilot brought his machine safely to rest, also avoiding a crash.

Ban U.S. Unemployed

Action Is Taken To Prevent Surprising Entry

Vancouver, B.C.—Hon. Ian MacKenzie, recently appointed Minister of Immigration and Colonization, has asked to have his department prevent the surreptitious entry of unemployed United States workers into Canada.

Instructions have been issued in Ottawa, by Deputy Minister W. J. Egan, to border inspectors to keep a sharp lookout for indications of attempts by United States citizens to make illegal entry into this country. Co-operation of the customs department and mounted police has also been sought. He states in a telegram to Mr. MacKenzie.

Mr. Mackenzie's statement follows: "Having had reason to suspect that unemployed Americans may be surreptitiously trying to make their way into Canada, I wired my deputy minister to exercise the utmost vigilance to see that this does not occur."

In view of the steps that will be taken in the near future to cope with unemployment in our Canadian cities, particularly in the west, we wish to ensure that the assistance rendered shall be to our own people only."

Women Peereesses

Bill To Admit Peereesses To Membership In House Of Lords Is Defeated

London, England.—A bill to admit women peereesses in their own right to membership in the House of Lords, was defeated by the narrow margin of four votes, 53 to 49.

Lord Astor, who has been the women's champion for many years in their fight for recognition in the Upper House, introduced the bill.

Conservative peers opposing the bill held that the question of the admittance of women should be left until the reform of the whole House was considered, a movement which has been considered for some time.

Unknown At Ottawa

"Pierre La Passe" Did Not Serve With Canadians During War

Ottawa, Ont.—No man of the name of "Pierre La Passe" ever served in the Princess Patricia's Canadian Light Infantry, officials of the National Defence Department declared here when asked concerning the man of that name who had given battle to a pair of gunmen in Chicago. There was no Pierre La Passe in any unit of the Canadian Expeditionary Force during the war, the official added.

Ask Penny Postage

London, England.—Reintroduction of Imperial penny postage, in the interests of Imperial unity, was urged in a resolution passed by the British Empire League. The resolution was proposed by Sir Henry Page Croft.

Siamese Princes Arrive

Their Serene Highnesses, Prince Ajlha, Prince Chirasaakti and Prince Prasaberi (left to right), nephews of his Supreme Majesty the King of Siam, who reached Vancouver, June 21, aboard the Canadian Pacific liner "Empress of Russia." The two young princes will enter school at Washington, D.C., while their elder cousin, a captain in the Siamese army, will take up temporary residence at the Siamese legation in the United States capital.

Belgium Accepts Invitation

Will Participate In World's Grain Exhibition and Conference

Regina, Sask.—According to word received, Belgium has officially accepted the invitation to take part in the World's Grain Exhibition and Conference to be held here from July 25 to August 6, 1932.

Some little time ago official invitations were sent from the Dominion Government to all countries inviting them to participate. A few countries in which cereal production is not carried on, or carried on to a very small extent, have gratefully expressed their inability to take part; others including the United States, Bolivia, Columbia and Chile have expressed their interest and asked for further information for consideration, and official acceptance has been received from Peru, Yugoslavia, Guatemala, New Zealand, Poland, Czechoslovakia, The Netherlands and Belgium, eight in all.

Mr. Mooney, the managing director, is now in Europe for the purpose of interviewing government officials and supplying to them detailed information relative to this great Canadian enterprise. His visit is expected to be the means of stimulating a greater interest on the part of European countries. The fact that many countries, two years previous to the holding of the show, have accepted the invitation to participate and send delegates is taken as a good omen for the 1932 show.

May Send Delegates

To Great Britain

B.C. Lumbermen Plan To Promote Sale Of Timber Products

Victoria, B.C.—British Columbia will send a lumber delegate to Britain shortly, as it sent a similar delegate to Australia early this year, to promote the sale of B.C. lumber in British markets, if plans discussed here between the government and E. M. H. Lloyd, representative of the Empire Marketing Board, materialize.

Hon. N. S. Lougheed, Minister of Public Works and a leading lumberman, asked Mr. Lloyd if a B.C. lumber delegate could secure work while results in Britain. Mr. Lloyd replied that it should be able to do a great deal of good in promoting the sale of B.C. timber products generally.

TWO WARSHIPS SENT TO EGYPT TO QUELL RIOTING

Indians Holding Congress

London, England.—Great Britain has approximately 9,800 troops stationed in Egypt. Tom Shaw, war secretary, told a questioner in the House of Commons. The troops consist of three cavalry regiments, six batteries of artillery, six infantry battalions and auxiliary troops, Shaw said. "The troops are stationed at Cairo, Ismailia, Alexandria and Port Said."

There was some question among political observers whether the British Government would not intervene in Egypt in view of its obligation to protect foreigners there.

Reports that eight or more foreigners were killed in rioting at Alexandria were not confirmed, however, and it was certain the present British Government would not act precipitately.

The British Government has ordered the battleships "Queen Elizabeth" and "Ramirez" to proceed to Alexandria for the protection of foreign lives and property endangered by disorders at that place.

Prime Minister MacDonald, in announcing the dispatch of the vessels, also informed the House of Commons that Sidney Pasha, the present Egyptian premier, and Nahas Pasha, former premier and Nationalist leader, had been warned they would be held responsible for the protection of foreign lives and interests.

New Form Of Farm Relief

U.S. Farmers Advised To Use Wheat As Dairy Feed

East Lansing, Mich.—Agricultural experts at Michigan State College offer a new form of farm relief to those who are worrying about the price of wheat.

Feed it to livestock, says a statement issued by the department heads. At present prices, wheat is worth \$5 more a ton as a dairy feed than as a commercial cereal, the experts assert, adding that farmers can save \$10 a ton by feeding wheat instead of corn.

IMPORTANCE OF GARNET WHEAT DEMONSTRATED

Ottawa, Ont.—Garnet wheat is assured a position of first importance in the supply of Canadian wheat going to European markets. This opinion was expressed by L. H. Newman, Dominion cerealist, under whose direction the tests of milling and baking qualities of Garnet wheat were recently conducted in Britain and on the continent.

In a statement issued recently based on his recent report dealing with the tests, Newman set forth that "the overseas" tests are through the criticism of Canadian millers that flour from Garnet wheat was not as white as the flour of Marquis, and that Garnet being a very hard, vitreous grain, might present some difficulties in the actual milling when mixed with Marquis and other wheats now being grown.

"Examination of the report shows fairly clearly, I think, that these objections do not apply to anything like the same degree in England, or on the continent, that they do here," observed Mr. Newman.

"Chiefly because of the fact that over there they blend wheat which they obtain from all over the world and are experts in conditioning and tempering." Not only do the overseas authorities anticipate no difficulty in blending Garnet; but because of its high grade it will enable the use of larger quantities of low grade wheats such as were produced in Canada in 1928. The livelier flour from Garnet is needed to improve the quality of the woolly flour of low grade wheats. It is an improver of blends that Garnet will find its greatest value.

Regarding the relation between Garnet, Marquis and Reward wheats from the grower's standpoint the Dominion cerealist declared that Garnet was not intended to take the place of Marquis nor was it particularly recommended for growing in districts where Marquis could be safely grown. It was an early maturing wheat and extended the production belt of high quality wheat to the north of the Marquis belt where Marquis could not safely be grown.

"Too little is known of Reward as yet to afford a detailed comparison," he said. "It is observed however, that Reward takes a few days longer than Garnet to mature. On virgin soils Reward is not as good as the best yielding wheats known, and it is an excellent exhibition wheat, but in other places it is proving a little disappointing from the yield standpoint."

Indians Holding Congress

Representatives From Canada Will Attend Meeting In Cleveland

Cleveland, Ohio.—Never before in history have so many Indian Americans of all tribes and nations gathered about one council fire, as they will in this city for five days in September. Prof. Nipo Strongheart, prominent Indian leader and director of American ethnology, who is giving his entire time to planning the congress, has numbered Indians by states, as follows: Oklahoma, 100,000; Arizona, 46,350; New Mexico, 25,000; South Dakota, 20,000; California, 19,000; Washington, 12,800; North Dakota, 10,000. Other states total only a few thousand. Indians of Canada to be represented at the congress will include Blackfeet, Bloods, Peigans, Cree, Sarcee, Sioux, Brantford, and the Mic Mac from Nova Scotia.

Shipbuilding Declines

Great Britain's Shipbuilding Industry Slows Up

London, Eng.—Decline of Great Britain's shipbuilding industry in ratio to that of the rest of the world is revealed strikingly in returns for the second quarter of this year made public by Lloyd Underwriters. Of 3,057,000 tons under construction by the world during the three months, 1,392,000 tons or 45 per cent. of the whole was being built in Great Britain and Ireland. This compares with a percentage of 57.2 built by Great Britain and Ireland in the 12 months immediately preceding the war.

Survived Wreck In Bush

Renfrew, Ont.—After wandering through the heavily bushed country in Admonston township for almost a week, a man and his horse, sleeping under the protective foliage of trees, Lloyd Warren, aged seven, for whom an intensive search had been maintained, was found. Doctors said he would be quite recovered in a day or two.

NOTES AND COMMENTS
Imagination, combined with logical
reasoning and sound principles, will
enable a man to gain any objective,
without reason, which he may set for
himself. Think only in material
terms, and you do not ascend to the
heights of mental vision which are
necessary for worth-while accomplish-
ment.

This was aptly illustrated in an in-
cident heard of recently. During a
strike in a western city some years
ago, a striker interviewed an execu-
tive of the firm he worked for. He
complained that the man in the su-
perior position enjoyed a greater in-
come and more leisure than himself,
which he did not consider fair.

Both men had worked together in
their younger days. The striker en-
joyed the same wages and opportuni-
ties as the man he was complaining to.
One had set an objective and
spent his spare time in self-improvement
to fit himself for a higher position,
while the other had enjoyed himself
as far as his means would permit
without denying himself.

One employed imagination in re-
gard to his future; the other was con-
tent to let the future take care of
itself. Rewards cannot be obtained
without sacrifice.

Another point in which imagination
has great influence. Business men
take the mental view that times are
dull. Admittedly they are, but it
gives greater opportunity for one to
call into play his imaginative quali-
ties. The man who gives some time
of each working day towards over-
coming the handicap of dull times
and business depression will dispel
the gloom which encompasses those
who sit around looking out of their
office or store windows wondering
when the next customer is coming in.

People must continue their various
essential activities. They must eat
and live and buy things. Goods must
be sold, and the man who bemoans
the quiet times will help to make
them quieter for himself, while the
imaginative fellow who misses not an
opportunity to continue business as
usual will reap the reward.

One of the greatest accomplishments
for the development of Western Cana-
da was the building of the Canadian
Pacific Railway. And it was built and
financed by men of vision or imagi-
nation, whichever you may please to
term it.

There are people so physically lazy
that they will not attempt to climb a
hill, much less a mountain. And there
are people who will not exercise their
God-given mentality to lift them-
selves above their environment. If
you do not climb to the top of the
hills, you cannot enjoy the panorama
below. If you do not elevate your
mind, you see nothing but a drab
surface in your daily life. Everyone
must fight his own battle in regard
to his own fixed purposes in life.
Many haven't any fixed purpose.
That's why they just drift.

Little better than a month ago we
were in the throes of a provincial
election. Next Monday the Federal
election campaign will come to a
close. Canada will be saved by one
of the great parties, while the Inde-
pendent group, consisting of the U.
F. A. and the Labor candidates will
consider themselves as the only peo-
ple who can act and think for them-
selves in parliament.

As a matter of fact, they must
have organization as well as the other
parties. They do not line up with
Liberals or Conservatives except when
it is expedient to do so, and their
much-bragged of independence is not
the virtue they would have people
believe.

There is no such thing as independ-
ence. We are all inter-dependent,
and to accomplish reform of any na-
ture there must be co-operation and
compromise.

Don't take your worries to bed.
You need all the sleep you can get
in order to dispose of them tomor-
row.

Here and There

Pressure of business and growth
of the Canadian Pacific Telegraphs
has necessitated the appointment
of an assistant general manager of
the system, W. U. Neil, assistant
manager, western lines, Winnipeg,
having been promoted to the posi-
tion. Other appointments result-
ing from this are: W. M. Thomp-
son, superintendent, Ontario Divi-
sion, Toronto, to be assistant man-
ager, western lines, Winnipeg; H.
S. Ingram, superintendent, eastern
division, Montreal, to be superin-
tendent, Ontario division, Toronto;
and W. S. Emery, chief operator,
Montreal, to be superintendent,
eastern division, Montreal.

Fox Film Corporation during
early July took sound records of
the wind in the pines, the music
of the waterfalls and the rippling
of streams around Banff Springs
Hotel and into this boxed atmos-
phere there will be placed actors
and actresses who will be shown
climbing mountains, walking by
the edge of lakes or canoeing on water-
courses they have never seen.

Beating the world's record in
passenger traffic operation, west-
ern Canada came into the lime-
light at the end of June with the
1252 mile continuous run from
Fort William to Calgary performed
by Canadian Pacific engine No.
2808, of the E1 class, while loco-
motive is one of several now in
service and under construction for
the railway and are the latest type
of passenger engine.

Carrying nearly a hundred tour-
ists organized by the University of
Montreal, a special Canadian Pacific
train left Montreal July 6 for
western Canada and the Pacific
Coast. This tour is the sixth an-
nual transcontinental trip under-
taken and will last for three weeks.
The richest industrial, agricultural
and commercial districts of Cana-
da, as well as the most beautiful
scenery, including the Rocky
Mountains, will be visited.

With a five-pound trout taken
himself and a four-pounder landed
by his son, in the catch, Arthur C.
Roché, of Melrose, Mass., has just
concluded a ten-day fishing trip
down the Cain's River, New Brun-
swick. He said he had never heard
of waters where there were so
much trout as in Cain's River.

A total of over \$87,000,000 is to
be spent this year on the construction
and maintenance of roads through-
out Canada. Ontario has set aside
\$12,500,000 of which \$10,000,000 for
new construction; Quebec will
spend \$1,000,000 for extending, im-
proving and maintaining the pro-
vincial system of roads. Maritimes
will expend \$10,000,000, and
British Columbia, \$8,500,000, re-
presenting a total of \$87,000,000
spent by provincial governments.

The old gentleman, Father Time,
often regarded as somewhat re-
lentless, has had one put over
him by the plant breeders at the
Government Central Experimental
Farm at Ottawa. Two crops of
grain are now grown there in each
year, one in the open and the other
in greenhouses, brilliantly lighted
with electric lamps, which have
proven to be good substitutes for
sun's rays.

Here and There

(1000)
Prince Iyosato Tokugawa, presi-
dent of the Japanese House of
Peers, and his son, His Highness
Tokugawa, Japanese Minister to
Canada, met recently on board
Canadian Pacific liner Empress of
Russia. The Prince was on his
way to London to attend the Inter-
Parliamentary Conference and took
the opportunity to see his son who
had come to Victoria from Ottawa
to meet him.

Leaping into shark-infested wa-
ters in the China Sea halfway
between Hong Kong and Shanghai,
Carpenter Tom Ellworthy, of the
S.S. Empress of Russia, saved the
106 of Mrs. McKerrett, passenger on
the ship who had jumped over-
board in a fit of dementia. The
woman strongly resisted efforts to
rescue her and 4th Engineer Dean
went to Ellworthy's assistance, the
two men succeeding in bringing her
back aboard ship after long and
exhausting struggles.

Beating the world's record in
passenger traffic operation, West-
ern Canada comes into the lime-
light this year with the 1252 mile
continuous run from Fort William
to Calgary of the Canadian Pacific
locomotive number 2808. A number
of locomotives of this class are now
being built by the railway, equip-
ped with roller-bearing boxes
which will still further facilitate
engine operations on long runs.

The season's first climb of Mt.
Temple, 11,600-foot peak in the
Rockies, was made last week by
Dr. Thorburn of Philadelphia,
well-known writer and Alpinist, and
W. Kerr, of Vancouver. Edward
Peux, dozen of Swiss guides in the
Rockies, was in charge of the climb
which started out from Chateau
Lake Louise at three in the morn-
ing and reached the summit at ten.

With the opening of the New
Pines Hotel at Bigby and of the
Algonquin Hotel at St. Andrews-
by-the-Sea at the end of June, the
tourist season in the Maritime
Provinces is now in full swing.
Reservations at both hotels are
very heavy, forecasting a prosper-
ous season.

MOUNT ROYAL COLLEGE

A HOME SCHOOLS IN THE FOOTBALL CITY OF THE WEST
Gen. W. Kerby, B.A., D.D., Principal
Staff of 12 Teachers
Public and High School Courses
(Including Grade 12), Commercial, Music, Art, Languages

New Post In C.P.R. Telegraphs

Growth of the Canadian Pacific Telegraphs and pressure of business
have brought about the appointment of an assistant general
manager, a new position, creation of which was made effective this
month. The new assistant general management goes to W. D. Neil
who was assistant manager western lines, stationed at Winnipeg, No. 4
of illustration. Other appointments resulting from this are: No. 3,
W. M. Thompson, superintendent, Ontario Division, Toronto, to be
assistant manager, western lines, Winnipeg; No. 1, H. S. Ingram,
superintendent, eastern division, Montreal, to be superintendent,
Ontario division, Toronto; and No. 2, W. S. Emery, chief operator,
Montreal to be superintendent, eastern division, Montreal.

WORLD HAPPENINGS
BRIEFLY TOLD

Sir Esme Howard, British ambassador to the United States, who was granted a barony on the recent King's birthday, has taken the title of Baron Howard of Penrhyn.

Professor Ludwig Stein, internationally known philosopher and author, died at a nursing home at Salzburg, Austria, after an operation. He was 70 years old.

Canadian shipping companies had the bulk of the wheat business on the Great Lakes last month, according to the report of the Lake Shippers' Clearance Association.

The British Government is highly pleased by the shipbuilding holiday agreed to by France and Italy. Premier J. Ramsay MacDonald told a questioner in the House of Commons.

The financial situation among Chicago's 13,000 public school teachers is once more acute. It is vacation time and pay cheques are three weeks overdue. To date, the back pay amounts to \$6,500,000.

Hundreds of thousands, celebrating 300 years of Massachusetts history, heard Sir Ronald Lindsay, British ambassador, bringing the greetings of the ancient mother state to the sovereign state of Massachusetts.

G. W. Jones, Canadian expert on taxation, has arrived at Canberra, Australia, at the invitation of the government of the commonwealth, to advise the administration regarding the operation of the sales tax introduced in the budget brought down recently.

British unemployment figures still are soaring upward a government report indicated. The Ministry of Labor announced that on July 7, the total out of work was 1,933,500, a gain of 42,925 over the previous week and 789,254 more than the same period last year.

Canada's Gold Production

Production in Canada Now Larger Than That of U.S.

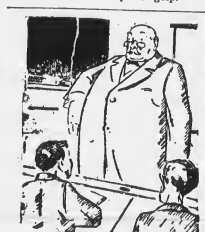

Canada has certainly been making rapid strides in gold production as compared with the United States, and last year the total production of gold out of Canadian territory was actually larger than taken out of United States. The United States, however, has also reports on production from gold mines in Alaska and in the Philippine Islands. According to mining engineers it is only a matter of a little time when the gold mines in Canada will be producing considerably in excess of what the United States is turning out, because the tendency is for the United States to report a smaller production, whereas many of the principal Canadian properties are gradually reporting a still larger output. Twenty-five years ago it was not thought that Canada would overhauled the United States in 100 years, and yet it has been able to achieve it in less than a quarter of a century.

Made Fortune From Linoleum

Ingenuity Of Englishman Started Him On Road To Wealth

Lord Ashton, whose amazing fortune was between thirty and forty millions, owed his wealth originally to his clever father's ingenuity, says the News of the World. The father was a working house painter who started a little shop in Lancaster, where he combined with his trade a picture-framing business. When the shop was introduced from America, he improved on it by giving it a backing of powdered cork instead of cloth. So linoleum was invented and his fortune made. Lord Ashton himself worked in his father's factory from an early age and proved a wonderful man of business.

A toad gets his meals by snapping his long tongue out at any insect coming within reach. The end of the tongue is sticky, and few are the insects that can escape its grip.

"Why haven't you written out your lines? I must sit still?" "But I couldn't write them when I had to sit still, sir."—Moustique, Charleroi.

W. N. U. 1847

Will Increase Safety
In Steel Construction

Electrical Flanger "Feels" Strain In Steel When Under Great Pressure

An electrical flanger that "feels" the invisible twists and strains in steel under great pressure was described to the American Society of Testing Materials.

The purpose is to increase safety in construction by making under conditions of actual heat tests heretofore confined to research laboratories. The device was described by J. P. Shamberger, of Pittsburgh, who said it was designed by J. G. Ritter, of the Westinghouse Electric & Manufacturing Company.

No longer than a human finger, and not much thicker, it bolts to the side of a rail and records the bending as a 100-ton locomotive thunders over. If placed on a curve it will show the side twist of the rail under the locomotive's thrust. It can be laid up on an automobile wheel to detect how nearly bumps come to causing overturn.

The finger works somewhat like a slide rule, being of two parts, which telescope. This telescoping amounts only to the diameter of a tremor or a vibration, that is, something like one ten-thousandth of an inch. Even so slight a motion slides a piece of iron to or from between two sensitized electrical instruments on the finger. These instruments correspond to the sense of touch. They detect the motion of the bit of iron, and with it the distortion which causes the movement. They register this movement by slight electrical changes.

The "nerves" of the finger then come into play. They are plain wires, which carry the slight electrical disturbances to instruments that amplify them into movements an inch long that can be calibrated in terms of wear and tear.

Bright Spots At Port Churchill

Northern Port Now Boasts Of Four Early Residents

Up on the rocky shore of Hudson Bay, Churchill was once "No Woman's Land." For five years—including the winters—Mrs. A. Gibson, wife of the Church of England minister, has made the new port her home. But, she says, the port boasts its largest contingent of femininity—four women.

Three new lady residents came north on the Muskeg Limited late in May. They were: Mrs. S. Martin, wife of the United Church missionary; her daughter, Margaret; and Mrs. Claude Johnson, wife of the divisional engineer of the Canadian National railways. All three will reside at Churchill until autumn.

Victim of Hay Fever: "I should like a bottle in my bed tonight, Mary." "Yes, sir. Irish or Scotch?"

A Girl Fire Warden

Young Californian Guards Hundreds Of Square Miles Of Forest

Most people start at the bottom of the ladder and work up. A young Californian girl, however, says an article in the Young People's section of the London Daily Mail, has started as high up as it is possible to get, and is doing her exalted job very well.

She is employed as a watcher for forest fires up in a veritable eagle'serie on the very highest point of Black Mountain, almost 8,000 feet above sea-level, in the San Jacinto range.

From her little log cabin, raised on stilts to give a clear view over the topmost trees, she looks out over hundreds of square miles of forest, signalling immediately when she sees a suspicious column of smoke by day and flickering flame by night.

An Alsatian dog named Mina is her only companion. Food comes up to her on the back of a mule. For water she has to climb some way down to a point where engineers of the Forestry Service dammed up a spring for her.

She admits that she does not like the thunderstorms, when lightning flickers all around her watch-post, but declares that she seldom feels lonely, for she was born in a cottage in the mountains and has always been accustomed to their picturesque solitude.

Grain Stocks Decrease

Grain In Store At End Of June Shows Decrease Of Over Three Million Bushels

Returns received as to stocks of grain in store for the week ended June 27, 1930, show a decrease of 3,277,506 bushels, according to a report issued by the Dominion Bureau of Statistics. Stocks for the week were as follows: Wheat, 13,735,712. Oats, 9,927,331. Barley, 22,639,184. Flax, 512,382, and Rye, 8,241,089, a total of 172,155,698 bushels. Decreases are noted in wheat of 2,251,893, Oats, 356,580, Barley, 3,771, Flax, 38,063, and Rye, 387,411 bushels. For the same week last year the amount in store was 148,820,622 bushels.

Judging By Actions

A California paper reports: "After the ceremony, Smith declared, he visited his father-in-law, Daniel Roney's house, whereupon his mother-in-law hit him over the nose, drawing first blood, and his father-in-law fired at him twice with a shotgun. The police believe the Roneys objected to the match."

Candy making is one of the least hazardous of the specialized industries, both from accident frequency and severity.

British airplanes now in regular use carry 22 passengers.

FASHION

YOUTHFULLY SMART

A most attractive cotton slinging in "Buddha" yellow colouring that will tub just beautifully and always appear smart and new, will catch the eye for mornings and porch.

Striking contrast is achieved through rolled shawl collar of white pique. The turn-back cuffs, pocket flaps and belt repeat the pique. The buttons are yellow with white rims.

The saving by making this becoming dress is enormous.

It is a slim straight type with a panel effect at the front which contributes charming length to the figure. Inverted insets at either side of the front provide ample fullness to the hem and yet retain its straight slender lines.

The belt holds the garment closely to the figure, creating the new pinched-in waistline. This belt is passed underneath the front and through the bound opening at the right side.

Style No. 3489 can be had in sizes 16, 18 years, 36, 38, 40, 42, 44 and 46 inches bust. It takes but 2 1/2 yards of 40-inch material with 5/8 yard of 36-inch contrasting to make this one-piece dress for the woman of average figure.

It is equally smart-fashioned of men's cotton shirting fabric that is used so extensively this season for sports frocks. Cut the insets, belt, pockets, cuffs and collar on the bias for contrasting trimming effect.

Printed pique, linen, printed batiste, printed dimity, tub silks and pastel handkerchief lawn are lovely ideas for its development.

Pattern price 25 cents in stamps or coin (coin preferred).

SUNDAY SCHOOL LESSON

JULY 27

DEBORAH "A LEADER IN A NATIONAL EMERGENCY"

Golden Text: "Say to them that are of a fearful heart, 'Be strong, fear not.'"—Isaiah 35:4.
Lesson: Judges 4:1-15.
Devotional Reading: Psalm 68:4-11.

Explanations and Comments

The Oppression At The Hands Of Jabin, verses 1-3.—When Ehud was dead, the Israelites were oppressed by the Philistines, and for fear of them travellers left the highways for the byways. With only his ox-goad as a weapon, probably at the head of many other peasants similarly armed, Shamgar killed six hundred Philistines. Then came a crisis, Jabin, king of the Northern Confederacy of the Canaanites, through Sisera, his commander-in-chief, had for twenty years held a military despotism over the northern districts of Canaan. The children of Israel cried out for help, for Jabin had nine hundred chariots, and they lived on the hills and had none.

Deborah Summons Barak To The Defense, ver. 4, 7.—The name Deborah means "Shee," "Mother," "Judge," that ancient interpreter of the Bible, sees in Deborah, the judge, the fulfilment of her name. Her industry, sagacity, and great usefulness to the public, her sweetness to her friends and sharpness to her enemies. She was a prophetess and the wife of Lapidoth. To quote Matthew Henry again: "The termination not being commonly found in the name of a man, some make this name the name of a place: she was 'a woman of Lapidoth.' Others take it appellative, 'Lapidoth,' signifying 'lamps.' The rabbi say she had employed herself in making wicks for lamps of the tabernacle; and, having sought to that mean office for God, she was afterwards thus preferred. Or she was a woman of illumination, one who was extensively knowing and wise." Between Ramah and Bethel, in the hill-country of Ephraim, she was wont to sit under a palm-tree as judge, perhaps not so often to settle disputes between men as to declare national affairs, and the tree was therefore called the palm-tree of Deborah.

Barak Requires Deborah's Aid, verses 8, 9.—Barak was not brave enough to start forth alone, and he refused to go unless Deborah would go with him. Deborah consented, but declared that he would not have the honor of the result, for Jabin would sell Sisera into the hands of a woman. Sisera was killed by Jael, a woman (verses 17-22), but Deborah's words seem rather to apply to her, that to her, rather than to Barak, would be given the credit for the victory.

Why They Are Flying

Air travellers, during a recent period, were asked why they were flying. Out of 568 passengers, 253 were on business, 146 for the "joy ride," 103 because they preferred the air, 53 to visit friends, theatres, etc., 12 on a tour, and only 1 to take part in a sporting event.

The trap door spider covers its tunnel with a trap door, neatly beveled to fit the opening, and hinged at one side. The door is made of alternate layers of silk and soil.

An "intelligent" perfume filling apparatus has been devised, which refuses to drop any liquid into a bottle that happens to be imperfect.

Consume More Meat

Substantial Increase In The Quality Of Meat Consumed By The Average Canadian

Reports of the Live Stock Branch of the Dominion Department of Agriculture, show a substantial increase in the quality of meat consumed by the average Canadian, particularly beef, lamb and mutton. In 1928, the home market absorbed 648,600,000 lbs., while in 1929 it absorbed 676,800,000 lbs., an increase of 28,000,000 lbs. of beef, or roughly 2 lbs. more per capita. The Canadian market consumed 70,500,000 lbs. of lamb and mutton in 1929, compared with 62,200,000 in 1928, an increase of 8,300,000 lbs., or nearly 1 lb. per capita.

A Good Definition

Col. "Pat" Hurley, of Oklahoma is a lawyer, but his business interest is oil and real estate. His definition of oil operators is: "An oil operator is a man who doesn't know whether he is four feet from \$1,000,000 or 1,000,000 feet from \$4."

A property in Durham, England, is held at the "rent" of three grains of pepper yearly.

Outdoes King Of Birds

Flock Of Eagle Raiders Were Annihilated By Airplane

After longing for unnumbered centuries to fly with the wings of an eagle, man has at last even outdone the king of birds. A flock of eagles raiding the sheep ranches near El Paso, Texas, were annihilated by an airplane with a passenger carrying a shot gun. In eight hours the "plane" had accounted for nine birds which a rancher had been trying to shoot from the ground for a year.

White Pine Best For Patterns

White pine is used for 90 per cent. of the patterns made in North America. The reasons for this, are, that white pine, more than any other wood, is easily worked, is of soft texture, is comparatively strong, is very durable and, most important of all, has very little shrinkage, which gives it the power to hold its shape indefinitely after being worked.

Sir Harry Lauder's last annual farewell tour of this country, scheduled for 1931, has this distinction: That he will be seen on it by people still living, who saw him on his first.

Make Your Windows Pay

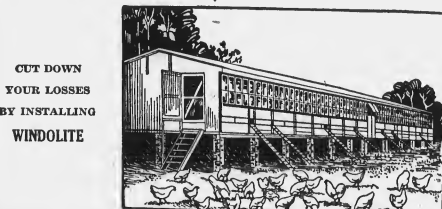

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE
MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

CHAPTER XX.—Continued.

"It does," Grandma agreed. "I wouldn't have believed Sarah could write two lines, to say nothing of six pages, without mentioning Jimmy. It comes over me, Grandma, to wonder if maybe he's got into some trouble."

"Trouble!" echoed Grandma in amazement. "What on earth are you driving at, Lizzie Baker?"

Miss Lizzie shook her head busily.

"Jim's a country boy, Grandma Davis. He's been brought up secluded, you might say. And they ain't so very far from Hollywood, which is a wicked place, full of vampires and divorcees. If you read the papers as carefully as I do, Grandma, you'll know that Jim is liable to meet temptation."

"And liable to overcome it, if he does," asserted the old lady with indignation. "Don't you get to romancing about Jim, and telling your inventions to every one that comes along. Such stories grow faster than weeds on a burned wood lot. Here comes Ezra Bascomb with the mail. You needn't stir, Lizzie; the doctor's getting it well," as the young man came inside, "were there any letters, or just that catalogue?"

The doctor greeted Miss Lizzie gallantly, and responded: "There's one for Charmin. I'll take it along and leave it at the school."

From behind the caller's broad back he winked at Grandma, and she asked: "Is it a thick one, Doctor?"

"It took two stamps to bring it," he replied.

"Who's it from?" put in Miss Lizzie. "It seems like an awful extravagance for a person to use two stamps unless it's a matter of life and death. Who can be writing Charmin such a long letter, I'd like to ask?"

The doctor laughed and answered. "Then you must ask Charmin. There's a heavy penalty for tampering with the U.S.M.I. I'll have a look at the furnace, Grandma, and then be off. If any messages come in just call up Doctor Howe. I'll stop there on my way back."

"I suppose I'd better go," remarked Miss Lizzie, rising. "I left some apples in the oven, and like as not they're burned to cinders. I wish the doctor and Charmin would get married, Grandma. It's such a comfort for a man to have help."

"We're told that while there's life there's hope," Lizzie, responded Grandma with a chuckle, "but I haven't an idea how Charmin would take to your suggestion."

Miss Lizzie sighed, wound the scarf about her neck three times, and fastened the moth-eaten fur above it.

"Girls have such a way of saying 'I'll' to this younger generation stuff you read about. In my day, Grandma, a girl would have been consid-

ered nothing short of a fool to turn down a fine young man like Doctor Carter—and Charmin's no fool."

"You're right," admitted Grandma. "My girl's no fool," then added to her as she watched her caller waddle across the street, "and so far I know, she hasn't turned him down!"

CHAPTER XXI.

Charmin was buttoning the last small Wickfielder into his coat when the backdoor opened to admit John Carter. The girl looked up with a smile as she finished her task, and the doctor, pulling off his gloves, went to the stove to warm his hands. Charmin sped her pupil on his way, and said, as she closed the door: "I suppose my chariot awaits me. You're awfully good to me, John. I'm tired today, and thankful to escape the walk."

"So you really admit you're tired? I'm surprised—after—"

He laughed, and interrupted: "I'm sorry I snapped at you last night when you were good enough to inquire for my health. I'm all right; truly; but I've been worried about something. That's why I blew up the way I did. I have a beastly temper," John Carter smiled.

"Will this ally some of that worry?"

He produced Jim's letter and held it out, while Charmin, her eyes detecting the familiar penmanship, drew a relieved breath and the color flamed gloriously in her cheeks.

"When did it come?"

The question was treasured because she seemed to feel the doctor's eyes boring into her head, in an effort to read the thoughts therein.

"Ezra left it as I was starting. I'm going to South Wickfield for a call. Perhaps you'd rather stay here till I get back and read your missive in peace—I see it lengthy—or you can peruse it while I see my patient. As a physician, not as a selfish human being (though I might think so), I prescribe the ride."

Charmin hesitated. She longed to read Jim's letter in the solitude of the deserted schoolroom; but on the other hand she needed the fresh air, and since John had been kind enough to stop for her, it seemed discourteous not to accompany him.

"Is it still frightfully cold?" she questioned, with a glance at her old sister. A fresh leak in the back hall made an extra ton of coal, had made the new coal impossible at Christmas time.

"I've got a wrap for you outside. I'll bring it in and warm it."

He was away, and Charmin tore open her letter, glancing first at the ending, her ears alert for the doctor's remarking stop. "Your always, Jim," was what she read, and her heart beat some of its burden at the friendly words. Jim wasn't mad, anyway! The missive was stuffed into her pocket when John returned bearing a heavy ulster of his own.

"This will go over yours, and you'll be warm as toast. It's really a good winter day, Charmin, no wind and a clear sky. I left your grandmother in close confab with Lizzie Baker, so she's not lonely; and anyhow, she knew I was going to bring you home so she won't worry if you're a trifle late. There! You're off!"

He laughed as he buttoned the top button close under her chin, and Charmin asked: "Like poor, dear Miss Lizzie! Help me turn back these sleeves, John. Now I'm ready. Will you lock the door, please?"

He obeyed, and said as he tucked the robe carefully around her: "If you're tired, don't just rest your eyes on the landscape or close them if you prefer. I won't chatter."

Charmin smiled.

"That sounds like an echo, Jim Bennett said almost those same words one day last fall when he picked me up. I'd had some trouble with Deacon Purdie, and was all in. I think the deacon was trying to get even with us about those beads, John, and used one of Lizzie's boys as the scapegoat. I was scared to death for fear I'd lose my job."

"And you never spoke of it at home! Why not?"

"It would have worried Grandma because she was responsible for that shrewd bargain. Besides, it wasn't necessary. Jim fixed it—somehow. Uncle George Knowles asked me what I'd do without Jim to fight my battles; but I suppose when we lose something we've always had and counted on, we just have to make the best of it, don't we?"

The doctor didn't answer this question; but after a moment he broke the silence by saying: "I didn't know that Mr. Knowles was your uncle, Charmin?"

"He's not, by law—only by love," she answered. "Jim and I have always called him Uncle George. Jim's father was his closest friend, you know; and as for me—well, he always wanted a daughter and never had one, so that explains it. He can't get over the fact that none of his boys

fell for me!" she finished, looking up with a smile in her blue eyes.

"They must be morons, all three of 'em," responded the M.D. with becoming gallantry.

"Far from it! They're making names for themselves, those boys. I think I was too much like a sister to them—they'd always had me hanging round. Then, too, George Junior was a bit old; and Sid was too young; and Bill, Jim's chum, never had eyes for any one but Madge Merry. I wish you knew her, John. She's a wonder, and my best friend; but she hasn't been much to me since she married Bill and went to live in Indianapolis. He's on a paper there, and doing splendidly."

"I seem to have learned some Wickfielder," smiled John Carter. "Here's where I stop. I'm likely to be a good half hour. Are you warm enough?"

"Snug as a bug in a rug, as Grandma says. Don't have me on your mind a minute."

Easier said than done, I fear," he answered, his gray eyes smiling; and as he turned away the girl drew out her letter.

She read: "When I got back from a three weeks' trip hunting a fruit ranch, and found your letter stuffed into the slit in my front door (it must have been left there before the post office got time to forward mail), I swore a deep, dark, terrible, bloody oath that would have turned my mother's hair quite white if she had heard it. And after I read what you had said to me, only my dyed-in-the-wool New England caution saved me from sending you a telegram that would have broken the bank at Monte Carlo—not caution at the expense, please understand, but you know yourself, Charmin, that a telegram in Wickfield is about as private a matter as the Grand Central Station is in New York. . . . Hence my caution. I wish . . ."

Charmin closed her eyes a moment. They had hesitated unexpectedly, and she wanted to wink the mist away and go on reading. The letter sounded so much like Jim's! she told herself foolishly; and then laughed at the thought. How silly she'd been to worry about his silence! What an idiot to think he could be angry, or not care enough to write!

(To Be Continued.)

A Gruesome Luck Symbol

Parisians Are Superstitious About Bit Of Hangman's Rope

A story comes from Paris of a wealthy South American woman who has lost all pieces of hangman's rope. So long, it seems, as she had the rope, luck favored her. Her husband found gold and made a fortune out of a company. She herself won a prize in a Spanish lottery. Then she moved into a magnificent flat in the Champs Elysees. The rope was lost during the removal. And the lady is inconsolable. The superstition about the luck of hangman's ropes is an old one which is most current in France, where, curiously, people are not hanged. And frequent requests are received by influential Britons to obtain through the Home Office one corde de pendu, or at least a portion of one.

Persian Balm invests every woman with subtle charm. Delicately fragrant. Cooling and healing. Disperses all roughness of changing. Makes skin delightfully soft-textured. Every woman should use this peerless toilet requisite. Delicately-beauty—refinement—Persian Balm achieves these in every instance. Softens and whitens the hands. Promotes clear and youthful loveliness. All women who care for additional charm, unhesitatingly choose Persian Balm.

Turner Valley Oil

Production from the Turner Valley oil wells in May amounted to 85,640 barrels as compared with 87,278 barrels in April. Of crude oil there were 4,619 barrels, of discolored crude naphtha 22,314 barrels and of crude naphtha 45,847 delivered to the Imperial Refinery, the balance being taken by the Regal Co.

Lack Education

Seventy-five per cent of the inmates of Sing Sing prison have no more education than that of a sixth grade pupil. N. J. Henzel, head teacher of the bureau of special schools in the New York state department of education, finds.

The first electric transmission system in the United States was at Fortson, California. The power lighted Sacramento.

Iceland's imports last year totaled nearly \$15,000,000.

The Age Of Progress

Nearly All Important Inventions Introduced During The Past Hundred Years

If it was kept in mind just how young this modern age really is, men and women living in it might not be so cocky, taking for granted, as they do, conveniences as if they always existed. If all the main inventions of the past hundred years were suddenly destroyed and all their plans lost, it would be surprising to find what chaos would exist.

All modern means of communication date within this modern century: telegraph to 1833, telephone in 1861; and much more recently the radio and television.

Nearly all modern construction is dependent on high explosives. Gun-cotton and nitroglycerine were introduced in 1867.

Modern transportation facilities invented in 1846. Dynamite dates include the gas-driven internal combustion engine, which made possible the automobile, invented in 1858, and in 1900 the alkaline storage battery, added to the feasibility of such transportation. The electric railway is only 50 years old. The airplane is well within modern memory.

Business would be badly crippled without the typewriter, 1870, and the electric lamp, 1879, and the modern pleasure depends largely on the phonograph, 1877; the movie, 1893, and the talkie, 1912.

This list seems an effective antidote for cockiness.

For Protection Of Blind

Manitoba and Saskatchewan Appoint Expert To Look After Their Welfare

Col. H. Burgett, principal of the Pennsylvania Institute for the Blind, has been appointed by the governments of Manitoba and Saskatchewan to investigate and report on matters appearing in the welfare of blind persons within the two provinces. This announcement was made following a meeting at Winnipeg between Premier J. T. M. Anderson, of Saskatchewan, and Acting Premier Robert A. Hoey, of Manitoba.

Appointment of the noted Pennsylvania educator follows recommendation by a special committee of the Manitoba legislature for setting up such a commissioner. The committee received a petition asking pensions for blind persons.

Pays To Be Polite

Charitable Institution In Australia Reported To Have Lost Donation Through Discourtesy

Because a secretary was discourteous, a charitable institution in Sydney, Australia, is reported to have lost \$50,000.

Charles McNeess, western Australian millionaire and philanthropist, complained to the institution and asked to see the governor "on private business."

"If you can't state your business, you can't go in," replied a secretary tartly.

"Well," said McNeess, "if that's the way you treat poor people I might as well tear this up."

He tore up a cheque for \$50,000 and gave the secretary the fragments.

Minard's Liniment gives quick relief.

The month of June showed an increase of 16.7 per cent in the value of construction contracts awarded throughout Canada, says "McLean Building Reports." Awards were greatest in the business buildings classification, 37.1 per cent, of all construction came in this group.

Special crossword puzzles in which the letters are "pegged" into squares on cardboard forms are made in Paris for the use of the blind.

Modern girls not only dress fit to kill (according to a cynic), but they cook the same way.

Shipments from Argentina reached their peak last year when the South American republic's total was 84,776, 496 bushels against America's 41,563,121.

This year's figures to June 30 were, United States 12,204,152, Argentina 19,187,620, while in 1928 the figures were: Argentina, 45,545,360, and United States, 44,170,068.

Argentina Buys Canadian Apples A demand for quality Canadian apples in Argentina, which should give an opportunity to Canadian fruit shippers, has been reported to the Department of Trade and Commerce by O. M. Armstrong, Acting Canadian Trade Commissioner at Buenos Aires. Canadian apples were favorably received last year when they were first sold in Argentina.

Nothing can take the place of Enamelware Ware. Indentify it by the SMP label of quality.

Enamelware Ware. Indentify it by the SMP label of quality.

Her Three Children Troubled With Diarrhoea

Mrs. Leo Lapointe, Laurier, Man., writes:—"My three youngest children were very bad with diarrhoea. I tried all kinds of remedies, until a kind lady told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle right away and started giving it to them, and the next day the diarrhea had stopped altogether. Now I will know what to do when any of my children are troubled that way again."

On the market for the past 85 years; put up only by The T. Millers Co., Ltd., Toronto, Ont.

Authorities Are Puzzled

Condemned Man In Estonia Chose Of Canning Fruits and Recovered

Serge Vasilanko's stomach has literally saved his neck.

Sentenced to death, Vasilanko was given his choice between the poison cup and the noose, according to Estonian law. He chose the hemlock draught in true Scotic fashion, drained it to its bitter dregs, and then refused to die.

Languishing for some weeks in the hospital, his sturdy body battling the poison, Vasilanko finally rose from his bed a few days ago, fully alive.

The authorities were puzzled. There was no precedent for this. They had given the prescribed dose, but the man still lived. Courteously they offered Vasilanko the business end of a hangman's rope, but he sent regrets.

"I have complied with the law to the letter," he said. "I see no reason why the remedy should be repeated."

And until someone finds a "reason" to the contrary, Vasilanko lives a free man, with a stomach to be proud of.

Warship Saves Woman's Life

Exciting Race Of Australian Warship "Anzac" In Teeth Of A

The exciting race of the Australian warship "Anzac" in the teeth of a tornado to save the life of a light-house keeper's wife has thrilled Australia.

When word was received that Florence Broderick, pretty 21-year-old wife of the lightkeeper of Gabo Island, was dying, the "Anzac" was ordered to sea with a surgeon. After being battered by the storm and swept from end to end by mountainous seas, the warship howled off the barren island.

Bluejackets rowed the surgeon through the surf to the rocky shore and all that night he remained at the woman's bedside. In the morning he was able to report that the crisis had passed and the patient was out of danger.

A pleasant message for children is Mother Gray's Worm Exterminator, and it is excellent for driving worms from the system.

Alberta Development Board

Southern Section Has A Fine Record Of Achievement

"The Alberta Development Board, southern section, enters the third year of its operation with a fine record of achievement," says the Calgary Herald, "which is no remarkable and valuable because it cannot always be reckoned in exact dollars and cents benefit to the people of the communities which it serves."

The board's work covers a wide variety of activities, all designed to make known the attractions and industrial and other opportunities of the area covered.

Argentina Wheat

Maintaining Lead Over United States In Shipments To Britain

Argentina is maintaining a steady lead over the United States in wheat shipments to Great Britain, England's import figures for that cereal recently made public revealed.

Shipments from Argentina reached their peak last year when the South American republic's total was 84,776, 496 bushels against America's 41,563,121.

This year's figures to June 30 were, United States 12,204,152, Argentina 19,187,620, while in 1928 the figures were: Argentina, 45,545,360, and United States, 44,170,068.

Little Helps For This Week

"Let every man prove his own work, and then shall he have rejoicing in himself alone, and not in another."—Galatians vi. 4.

Nor serve we only when we gird Our hearts for special ministry; That creature work has ministered. Which is what it was meant to be.

"I have desired," says King Alfred the Great, "to live worthily while I have lived, and after my life to leave the men that should be after me a remembrance in good works." If you lofty the simple words are! Duty, not romantic achievement, is the aim of his life; not to do some "great thing," but the right things, the right things being simply what God gave him to do. He seems to have felt in his inmost being that each man was sent into the world, not to live like some one else, but to do his own work and bear his own burden, precisely the one work which God has given him, and which can never be given to or done by another.

—Elizabeth Charles.

Terribly Weak

Strength Regained Through the Use Of Dr. Williams' Pink Pills

"After the birth of my baby I was terribly weak," says Mrs. Jos. Morasse, Dupuy, Que., "and could not sleep or do my household work. I was dependent and was afraid I would be a constant invalid. I began taking Dr. Williams' Pink Pills, and before long my health was restored and I could do my household work without fatigue. Since then I have used these Pills on two other occasions with splendid result."

Dr. Williams' Pink Pills enrich and purify the blood. That is why better sleep, steady nerves, improved appetite and increased vigor follow their use—all these can be yours if you start treatment today. The Pills are sold by medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Stamps Cleverly Forged

Were Used By British Secret Service During War

A little known phase of the Secret Service in the war was revealed in an auction room in London, England, recently, when nine used German stamps were offered. They were forged by the British Government for the use of spies dropped behind the enemy's lines. Careful search by philatelists had revealed only minor flaws in the designs, and the paper, water-mark, and perforations are excellent. Two values were made, the red 10-pennig, and the grey 15-pennig, and a block of nine of the latter was for sale.

Local News

Mrs. Jas. Moores and Alfred are spending two months holiday at Portland, Maine, having left about three weeks ago.

Capt. J. W. Gresham, of the 2nd Alberta Mounted Rifles, returned last week from the annual training period at Sarcee Camp. His squadron won the General Efficiency Cup for the third year in succession, winning out against the 1st C.M.R. by 803 to 790 points.

Mr. and Mrs. Montagu Wilson, who came in last week from Fort William to attend the wedding of Sidney White and Miss Odell, left on Sunday morning for the Arrow Lakes, B. C. to spend a holiday before returning east via Banff and Calgary. Many old friends were pleased to see them, and while here they were guests of Mr. and Mrs. T. Blower.

Capt. Jas. B. Meakings, officer in charge of the Salvation Army here last year, breezed into the office on Saturday, having come in with the Chariteers. They are touring the province, and Lieut. W. Ratcliffe and Cadet P. Gorrie accompany him. They held open air meetings here and reinforced Capt. Shous and Lieut. Wiseman, the local officers, in their weekend services.

The Blainmore Enterprise says: "Local merchants, who aim to retain trade by advertising in the home paper and keeping trade at home, are doing a service to the community. Merchants who do not try to keep business in the home town by carrying a live advertisement in the home paper do not deserve home town business."

QUOTATIONS FOR TODAY

It is a healthy symptom when a man is dissatisfied without being discouraged.—Roy L. Smith.

Read This and Take Heed

A Challenge to Business Which Applies to All Lines of Activity.

Despite any threat of a midsummer slump in retail merchandising, a large department store advertises a clearance sale under the slogan, "Business Is Good, If You Go After It." The proprietor makes the point that the adventure of living moves merrily forward, that old automobiles are being exchanged for new ones, that the call of changing fashions is still obeyed, that there is no let-up in demand for a vast variety of article, which add to the measure of personal enjoyment.

This hopeful and far-sighted advertiser sounds a greatly needed note of confidence and enterprise to offset the clamor of the ravens' chorus whose principal refrain seems to be that of widespread economic distress. It may require more resourcefulness and grit to sell some kinds of good today, especially the higher priced luxuries, but markets are to be found by diligent effort, and purchaser

stand ready to buy what they need. To put up the store shutters, dismiss half of the clerks and submit supinely to a condition of sluggishness which in the majority of instances need not exist, is to block effectually the steady flow of trade.

Confidence in the essential stability of business and courage to act from this standpoint are powerful aids in offsetting much apparent lethargy and stagnation. Intelligent advertising and genuine initiative are powerful collaborators in dispelling the bogey of depression and re-establishing normal conditions of trade.

Bandsmen's Protests

(Continued from Page One) have this contest conducted in the best possible manner, as we are not interested in any individual band, but are trying to make the contest a benefit to all bands.

Yours very truly,

E. L. RICHARDSON,
General Manager.

NOTICE

The Journal is published two days early this week, necessitating holding over various items of local interest, which will appear in the next issue.

George Graham has the contract for painting the exterior of Camrose school in West Coleman.

John Anderson's pigeons were first home in a flight from Cardston on Sunday. They were released at 11 a. m. and reached here at 1:40. J. Sudworth's was second and W. Roughhead's third. Over 60 birds of local fanciers were in the flight. Many did not return till Monday.

Mr. Melville Anderson, of Anderson & McLean, sight specialists, of Calgary, announces next visit to G. R. Powell's, Coleman, Tuesday, July 29th. 20 years experience in regular visits assures you of satisfaction in all optical work.

Mrs. H. W. Clark has returned home after several weeks in the hospital. Her son Hubert came up from Taber on Saturday to spend the week end.

WANTED—Four men for Fire Brigade, must live at hall, free accommodation. Apply to J. Houghton, Fire Chief.

The Weight Test

Shows
Gum-Dipped
Cords

are Stronger-Tougher

HERE is a test which easily proves the value of Gum-Dipping—the extra patented Firestone process of saturating and insulating every fibre of every cord in a Firestone tire with rubber to eliminate internal heat and friction—the greatest enemy to tire life.

A two-ounce weight is suspended on the end of one strand of a cord (a) taken from an ordinary tire. The strand breaks in 15 seconds. A similar weight is suspended on a Gum-Dipped strand (b) taken from a Firestone tire—it remains unbroken for 45 seconds—three times as long!

Let your nearest Firestone dealer equip your car with a set of these stronger, tougher, more dependable tires that hold the world's records for mileage and endurance. See him today.
